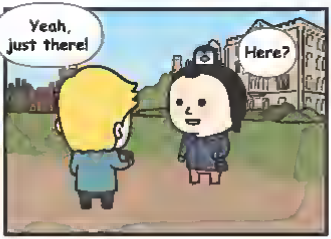
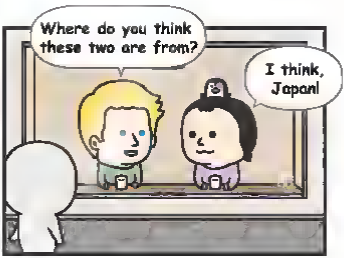
Penguin Loves Mev
In the UK

I'm sure about it

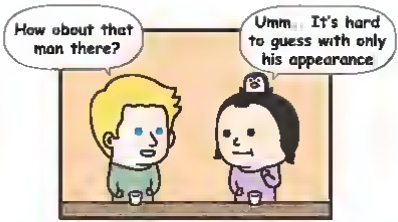


When we visit a tourist place,...

...we see many tourists of course.



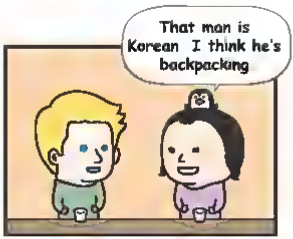
Then we sometimes try to guess where the people are from.



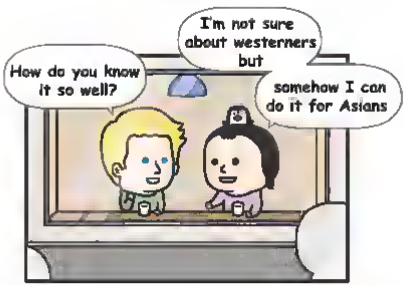
One thing that we found through our experiences is...

Wait, he got something out of his bag.

A hat and a pair of glasses!?



...that each natianality normally have their own style



Of course, we're not 100% right all the time.

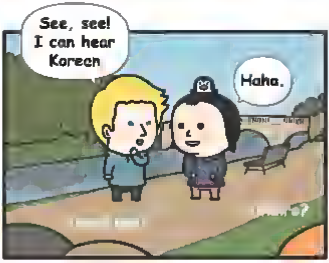
However.

There is one thing that even Mev can be sure about.

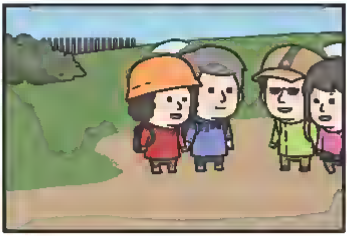
That is, seniors with mountain-climbing clothes on are Korean.

It seems so popular
among seniors who are travelling

Maybe because it's comfortable and warm?
Well~ I guess so



Like he can be sure that they are Korean,
I can be sure of one thing too.



That's that Mev says "hello"
in Korean.

If a stranger says hello in Korean
to you on the street so suddenly,

that's Mev.

Hello~
